

<b>Table or figure</b>	<b>note</b>	<b>source</b>
Table 1	Distribution of valuations for public project and number of observations by treatment	1. reproduction-Flip-a-coin-or-vote.do
Table 2	Predicted mechanism choices (ex ante)	authors calculations, appendix Derivation of predictions
Figure 1	Binary Mechanism choices in the ex ante and the ad-interim stage.	2. choice_comparisons.R
Table 3	Prediction 1, money-maximizing under full rationality	1. reproduction-Flip-a-coin-or-vote.do
Table 4	Effect of social concerns on mechanism choices	1. reproduction-Flip-a-coin-or-vote.do
Table 5	Theoretical and realized group surplus with AGV and SM (ex ante)	3 expected surplus calculations behavioral strategy.Rmd
Table 6	Efficient implementation in the AGV and SM mechanisms	3 expected surplus calculations behavioral strategy.Rmd
Table 7	Effect of utility differences, lab and theory	3 expected surplus calculations behavioral strategy.Rmd
Table 8	Expected utility by type and mechanism in Bayes-Nash equilibrium	authors calculations, appendix Derivation of predictions
Table 9	Predicted mechanism choices (ad interim)	authors calculations, appendix Derivation of predictions
Table 10	Mechanisms chosen by a majority of subjects in the first 6 ex-ante rounds	1. reproduction-Flip-a-coin-or-vote.do
Table 11	Percentage of subjects who chose each mechanism in the ex-ante rounds	1. reproduction-Flip-a-coin-or-vote.do
Figure 2	Comparing mechanism choices with positive and negative valuation in all treatments	1. reproduction-Flip-a-coin-or-vote.do
Table 12	Proportion of subjects who chose each mechanism in the ad-interim rounds	1. reproduction-Flip-a-coin-or-vote.do
Figure 3	Distribution of expected utility differences and mechanism choices including GLM prediction.	3 expected surplus calculations behavioral strategy.Rmd
Table 13	AGV reports (ex ante)	1. reproduction-Flip-a-coin-or-vote.do

Table 14	Effects of different types of false reports (ex ante)	3 expected surplus calculations behavioral strategy.Rmd
Figure 4	Empirical best responses in the AGV mechanism	3 expected surplus calculations behavioral strategy.Rmd
Table 15	Theoretical and non-normalized average group surplus with AGV and SM (ex ante)	3 expected surplus calculations behavioral strategy.Rmd
table 16	Logistic regression on efficient implementation decisions in SM and AGV	3 expected surplus calculations behavioral strategy.Rmd
table 17	Contingency and Fisher exact test of the efficiency of AGV and RAND	3 expected surplus calculations behavioral strategy.Rmd
table 18	Logistic regression on efficient implementation decisions in AGV with RAND	3 expected surplus calculations behavioral strategy.Rmd
Table 19	Distribution of strategies in AGV and SM.	3 expected surplus calculations behavioral strategy.Rmd
Table 20	Relation between time spend on test questions and behavioral strategies in the mechanisms.	3 expected surplus calculations behavioral strategy.Rmd
