

This data set contains currency price data of currencies traded in Amsterdam (and sometimes Rotterdam) over the period 17 December 1915 to 31 December 1925. They were published by Economisch Statistische Berichten, a Dutch weekly journal, in issues 1 to 523. The numbers in the file represent exchange rates relative to the Dutch guilder.

The journal has been digitized by the Royal library in the Netherlands, via [www.delpher.nl](http://www.delpher.nl). Link to the first issue: <https://www.delpher.nl/nl/tijdschriften/view?identificatie=dts:638002:mpeg21>

Each column contains the city name of the foreign currency translated in English, the country names were not printed in the journal but added by the authors.

The data has been hand collected by **Laurens Swinkels** and **Simon Rosier** during 2020 and 2021.
